Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, competing priorities, and whether or not further accruals are expected. The library attempts to provide a basic level of preservation and access for all collections, and does more extensive processing of higher priority collections as time and resources permit.

Separated Materials

Thirteen printed items received with the collection, consisting largely of sermons, religious pamphlets, eulogies, and scientific texts, were removed for separate cataloging in April 2018. They can be found in the catalog by searching the phrase "Fisher, Alexander Metcalf" in the Special Collections Subject field.
