CALL NUMBER: WA MSS S-2730

TITLE: Western film collection

DATES: 1911–2006

PHYSICAL DESCRIPTION: 90.11 linear feet (116 boxes) + 5 broadsides

LANGUAGE: Materials are in English, with some material in German and Spanish.

SUMMARY: The Western Film Collection consists of press kits, pressbooks, posters, photographs, souvenir programs and other materials that were distributed by film producers to movie theater operators to promote their films. The Western films represented in this collection are Western genre films, films set in the trans-Mississippi West, and/or films with Western characters. Press kits typically include advertisements prepared for submission to newspapers and magazines; black-and-white photographs of scenes from the films with credit information; printed booklets called pressbooks containing information about the film, actors, and other personnel; and posters for lobby display. Early press kits were called "campaign kits." While the majority of press kits included in the collection consist of foldered printed material, there are several examples of electronic press kits on compact disc. The Buddy Holly Story pressbook contains a "flexi disc" recording bound in.

Processing Information

This collection received a basic level of processing, including rehousing and in some instances minimal organization. Various acquisitions associated with the collection have not been merged and organized as a whole. Each acquisition is described separately in the contents list below, titled according to month and year of acquisition.

The finding aid for this collection is compiled from individual preliminary lists for each acquisition that were created at or around the time of receipt by the library. The preliminary lists were migrated to comply with current archival descriptive standards and merged into a single file in 2007-2008. As part of the migration, modifications were made to the formatting of individual lists; however, the content of the lists was neither modified nor verified. Further organization, rehousing, and description were carried out in 2013.

The collection is comprised of material formerly classed as UNCAT WA MS 233, UNCAT MSS 882, UNCAT MSS 1244, UNCAT MSS 1293, UNCAT MSS 1294, UNCAT MSS 1295, UNCAT MSS 1296, UNCAT MSS 1297, UNCAT MSS 1299, UNCAT MSS 1300, UNCAT MSS 1301, UNCAT MSS 1303, and UNCAT MSS 1305.

As a rule, descriptive information found in the Collection Contents section is drawn in large part from information supplied with the collection and from an initial survey of the contents. Folder titles appearing in the contents list below are often based on those provided by the creator or previous custodian. Titles have not been verified against the contents of the folders in all cases. Otherwise, folder titles are supplied by staff during initial processing.

Two film titles separated in the listing by a slash mark (/) indicates that the two films were promoted together.

This finding aid may be updated periodically to account for new acquisitions to the collection and/or revisions in arrangement and description.

This finding aid was revised in 2023 to add this processing note to contextualize a racist and sexist descriptor used in a folder title in the 23 October 2017 acquisition [1 of 2]. This folder title contains a transcribed film title from the lobby card. The use of this title is not an endorsement of the language it contains. This descriptive language has been retained to promote searchability and discoverability of the collections. Please contact the Beinecke Rare Book & Manuscript Library for details or if you have questions or comments about these revisions. For more information on reparative archival description at Yale, see [Yale's Statement on Harmful Language in Archival Description](#).

Press kits typically include advertisements prepared for submission to newspapers and magazines; black-and-white photographs of scenes from the films with credit information; printed booklets called pressbooks containing information about the film, actors, and other personnel; and posters for lobby display. Another still shows a confrontation scene between Marcus (Jean Hersholt) and McTeague (Gibson Gowland), which features the original still stamp template for the film from Metro-Goldwyn.
