CALL NUMBER: Pam Coll 12

TITLE: Pamphlets on public health

DATES: 1879-1966, undated

PHYSICAL DESCRIPTION: 8 linear feet (11 boxes)

LANGUAGE: English

SUMMARY: The collection includes pamphlets and other materials regarding public health created by national, state, and municipal government agencies and other organizations from 1879-1966. Collection materials address topics including child care, communicable diseases, health care, hygiene, midwifery, nutrition, and sanitation and public health administration, laws, and statistics. Most materials address public health concerns in the United States except Series VI. Public health, foreign countries, which includes material created by international organizations and organizations in other countries.

Administrative Information

Immediate Source of Acquisition

Provenance for collection materials is unknown. Collection was created by Medical Historical Library staff.

Conditions Governing Access

The collection is open for research.

Conditions Governing Use

Copyright status for collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

Pamphlets on public health. Historical Library, Harvey Cushing / John Hay Whitney Medical Library, Yale University.

Scope and Contents

The collection includes pamphlets and other materials regarding public health created by national, state, and municipal government agencies and other organizations from 1879-1966. Collection materials address topics including child care, communicable diseases, health care, hygiene, midwifery, nutrition, and sanitation and public health administration, laws, and statistics. Most materials address public health concerns in the United States except Series VI. Public health, foreign countries, which includes material created by international organizations and organizations in other countries.

Arrangement

The collection is organized in seven series: Series I. American Public Health Association, 1883-1945. Series II. National organizations, non-governmental, 1922-1957. Series III. United States Public Health Service, 1918-1966, undated. Series IV. Other United States government agencies, 1919-1962. Series V. United States, state or territory, 1879-1962, undated. Series VI. Public health, foreign countries, 1924-1965. Series VII. Children's health, 1921-1965.

Series V. United States, state or territory, is further organized into sub-series for each state or territory. Series VI. Public health, foreign countries, is further organized into 2 sub-series: International organizations and Single country.

Items in each series and sub-series are organized alphabetically by author name and date.

Collection Contents

Series I: American Public Health Association, circa 1883-1945

American Public Health Association

b. 1, f. 1	American Public Health Association, <i>Abstract of report on disinfection and disinfectants by a committee appointed by the American Public Health Association.</i> New Haven, Connecticut, circa 1883.	circa 1883
