CALL NUMBER: MS 259

CREATOR: Hammond, John Hays, 1855-1936

TITLE: John Hays Hammond Sr. papers

DATES: 1893-1936

PHYSICAL DESCRIPTION: 10 linear feet (16 boxes, 1 folio)

LANGUAGE: English

SUMMARY: Correspondence and printed material concerning the business affairs of the Consolidated Gold Fields of South Africa, the economic development of South Africa, and the Jameson Raid; together with articles and speeches (1893-1934) relating to Hammond's activities as a speechmaker in behalf of the Republican Party, organizer of the National League of Republican Clubs, special ambassador and representative of President William Howard Taft to the coronation of George V, king of Great Britain, and vice-president of the Boys' Clubs of America. Includes photostatic copies from the papers of Richard Olney, concerning Hammond's part in the Jameson Raid. Also included is a two volume set, *The Autobiography of John Hays Hammond*. Photographs of Hammond and his home are included in the papers.

Married January 1, 1881, in Hancock, Maryland., Natalie, daughter of James W. M. and Mary C. (Lum) Harris, of Mississippi. Children Harris, ex-'06 S.; John Hays, '10 S.; Richard Pindell, '20S.; Nathaniel Harris (died 1906); and Natalie. Mrs. Hammond died June 18, 1931.

Death due to coronary occlusion. Buried in Green-Wood Cemetery, Brooklyn, New York. Survived by three sons, daughter, and a sister, Mrs. Elizabeth Hammond, of Gloucester, Mass.

(Taken from the *Yale Obituary Record*)

Scope and Contents

The papers of mining engineer John Hays Hammond (1855-1936) include correspondence, letter books, and printed material (1893-1936) concerning the economic development of South Africa and the Jameson Raid, and articles and speeches (1893-1934).

Hammond's experiences, related in vivid detail in his two-volume autobiography published in 1935, were dramatic and adventurous enough to inspire the writing of Richard Harding Davis' *Soldiers of Fortune*, which was published in 1897. Before the age of forty, Hammond had amassed a sizable fortune. His almost uncanny talent for discovering and developing a good prospect was internationally recognized, and in 1893 Barney Barnato persuaded him to manage his mining interests in South Africa. Soon after, Hammond was employed by Cecil Rhodes, whom he came to admire greatly. An early advocate of deep-level mining, Hammond was given complete charge of Rhodes' gold and diamond mines and made each undertaking a financial success. After the dismal failure of the Jameson Raid, the leaders of the Johannesburg Reform Committee, including Hammond, were arrested and subsequently sentenced to death. In the collection are many letters, and photostatic copies of the papers of Richard Olney, petitioning for his release. The bulk of the correspondence, however, pertains to business affairs of the Consolidated Gold Fields of South Africa.

In 1903, Hammond became consulting engineer for the Guggenheim Exploration Company, sharing in the profits of their North American mines. After his retirement in 1907, he engaged actively in public and philanthropic affairs. Hammond (Yale, 1876) had known Taft since his student days, and although he did not accept any of the political posts offered him by the president, he delivered numerous speeches for the Republican Party. In 1911, he was appointed Special Ambassador and Representative of the President to the Coronation of George V. The peace movement attracted him; Hammond served as president of the American Society for the Judicial Settlement of International Disputes in 1911 and organized the World Court League in 1915. Above all, he was interested in the education and training of young people. Largely out of his own funds, he reorganized the National League of Republican Clubs. Hammond was a professor of mechanical engineering at Yale from 1902 to 1909 and donated funds for the Hammond Metallurgical Laboratory. As vice-president of the Boys' Clubs of America, he worked to promote the founding of new clubs. His generous efforts in these and other areas are fully described in the Articles and Speeches section.

Additional Hammond material is located in the Papers of Edward M. House and Henry L. Stimson, and in the Howell Wright Collection.

Arrangement

The collection is arranged by type of material.
