Interviews with architects and others affiliated with the construction of the Art and Architecture Building

The interviews with architects and others affiliated with the construction of the Art and Architecture Building consist of audiocassettes recorded by Smith. The labels on the cassettes were handwritten by Smith and are occasionally illegible. Labels are transcribed as written, with notations by the archivist, where applicable, in brackets. Where two dates for a cassette are listed, the first indicates the date of side 1, followed by the date of side 2.

Original audiovisual materials, as well as preservation and duplicating masters, may not be played. Researchers must consult use copies, or if none exist must pay for a use copy, which is retained by the repository. Researchers wishing to obtain an additional copy for their personal use should consult Copying Services information on the Manuscripts and Archives web site.
