CALL NUMBER: MS 1700

CREATOR: Horstmann, Dorothy M. (Dorothy Millicent), 1911-

TITLE: Dorothy M. Horstmann papers

DATES: 1927-2001

BULK DATES: 1946-1995

PHYSICAL DESCRIPTION: 17.92 linear feet (46 boxes)

LANGUAGE: English

SUMMARY: The papers include correspondence, writings, research data, notes, memorabilia, and photographs, which document Dorothy Horstmann's years at the Yale School of Medicine as a bio-medical researcher and teacher. The papers highlight her accomplishments in understanding and controlling the transmission of poliomyelitis and rubella.

Administrative Information

Immediate Source of Acquisition

Gift of Dorothy M. Horstmann, 1995-1996; gift of Arthur Ebbert, Jr., 2002; gift of Daniel Wilson, 2020.

Conditions Governing Access

While this collection as a whole is available for research, parts of it may be restricted due to law, university policy or fragility. Any restricted material will be noted as such.

Conditions Governing Use

Copyright for unpublished materials authored or otherwise produced by Dorothy M. Horstmann has been transferred to Yale University. These materials may be used for non-commercial purposes without seeking permission from Yale University as the copyright holder. For other uses of these materials, please contact beinecke.library@yale.edu.

Copyright status for other collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

Dorothy M. Horstmann Papers (MS 1700). Manuscripts and Archives, Yale University Library.

Associated Materials

John Rodman Paul Papers (MS 1333), Manuscripts and Archives, Yale University Library.

Biographical / Historical

Dorothy Millicent Horstmann was internationally known for her significant contributions to the understanding and control of poliomyelitis and congenital rubella. The many tributes and honors accorded her make clear how highly she was regarded as a researcher, clinician, teacher and friend.

Horstmann was born in Spokane, Washington, on July 2, 1911. After earning both her bachelors degree (1936) and her M.D. (1940) from the University of California, San Francisco and completing residencies at San Francisco County Hospital and at Vanderbilt University Hospital, she came to Yale University in 1942 as a post doctoral Commonwealth Fund fellow in the Section of Preventive Medicine of the School of Medicine. Here John Rodman Paul, director of the Yale Poliomyelitis Study Unit, stimulated her interest in the epidemiology and pathogenesis of viral infections. In 1944, she was appointed instructor in the Section of Preventive Medicine. She spent the year 1944/1945 as an instructor in the Department of Medicine at the University of California, San Francisco and 1947/1948 as a National Institutes of Health Fellow at the Institute of Medical Research in London. Otherwise, she served the entire remainder of her career as a faculty member at Yale. She became an assistant professor in 1948 and attained the rank of associate professorship in 1952. In 1961, she became the first woman to be appointed professor at the Yale School of Medicine. In 1969, when she became the John Rodman Paul Professor of Epidemiology and Public Health, she was the first woman ever to hold an endowed chair at the university. President Kingman Brewster appointed her to the Committee on the Status of Academic and Professional Women at Yale in 1970.

Horstmann's early research focused on the pathogenesis of the poliomyelitis virus. In 1946 she discovered that the virus is present in human blood during the incubation period of the infection but disappears later, when the neurologic symptoms begin. This research breakthrough implied that if serum antibodies could be induced by vaccination, the virus in the blood could be neutralized and thus prevent the virus from affecting the central nervous system. Demonstrated through carefully conceived experimental studies in monkeys and epidemiologically based human observations, this discovery became the basis for an efficacious vaccine against polio.

From 1955 to 1961, the Yale Poliomyelitis Unit evaluated immunization against poliomyelitis with live, attenuated vaccine, the Sabin vaccine. It carried out trials of both the Sabin and the Salk vaccines in New Haven, Guadalupe village in Arizona, Costa Rica, and also in Middletown and Southbury, Connecticut. Horstmann also evaluated the oral polio vaccine program in Russia, Czechoslovakia and Poland for the World Health Organization. The resulting report helped develop acceptance of the Sabin vaccine in the United States. In the 1960s and 1970s, Horstmann also did research on the clinical epidemiology of the rubella virus. Her work played a significant role in assuring the safety and effectiveness of rubella vaccine.

When John Rodman Paul died in 1971, leaving unfinished his *History of Poliomyelitis*, Horstmann took up the task of seeing this work through to publication and of producing a festschrift in his memory. In recognition of her scholarly contributions, Horstmann was elected to the National Academy of Science and the Royal Society of Medicine. In 1983, she chaired the Organizing Committee of the International Symposium on Poliomyelitis Control, sponsored by the National Institutes of Health Fogarty International Center. She served a term as president of the Infectious Diseases Society of America (1974/1975), and the Yale School of Medicine created an annual Dorothy M. Horstmann Lectureship as a continuing tribute. Horstmann died on January 18, 2001.

Scope and Contents

The Dorothy Horstmann Papers include correspondence, writings, research data, notes, memorabilia, and photographs, which document Dorothy Horstmann's years at the Yale School of Medicine as a bio-medical researcher and teacher. The papers highlight her accomplishments in the epidemiology and conquest of poliomyelitis and rubella.

Horstmann's work as a virologist studying polio and rubella is amply documented in her writings and in extensive research data. The papers also include notes and reports from her research trips to Russia, Poland, Czechoslovakia, China, and Korea. While the papers contain a scant quantity of material from Horstmann's classroom teaching, they do reflect her role as a mentor to other scientists. The papers also chronicle Horstmann's involvement in professional organizations and her love of travel.

The collection includes a large quantity of materials related to John Rodman Paul, which document Horstmann's close working relationship with her mentor. This material consists of correspondence between Paul and Horstmann and with others concerning their joint projects. Evidence of her collaboration on Paul's publications is apparent in the papers, especially on her work to ensure the publication of Paul's *History of Poliomyelitis*. Other Paul materials in this collection include files on the preparation of a 1961 festschrift in Paul's honor and letters of condolence at his death.

Noticeably missing from the papers are materials about Horstmann's childhood or early career, and though Horstmann's appointment to an endowed chair at the university was a first, her papers contain little personal reflection on the challenges of being a woman scientist.

Arrangement

Arranged in seven series: I. General Files, 1927-1995. II. Writings, 1946-1994, n.d. III. Teaching, 1947-1983. IV. Research and Consultations, 1940-1990. V. Professional Meetings, 1951-1994. VI. Personal Papers, 1941-2001. VII. Photographs, 1940-1994.

Collection Contents

Series I: General Files, 1927-1995

The series consists generally of correspondence with or about colleagues, institutions, publishers, periodicals, organizations, conferences, and committees. The files are arranged in alphabetical order.

The correspondence includes exchanges with or about several professional colleagues whom Horstmann also considered personal friends. Among these are I. George Miller, James Henderson, Sunderland Gear, Herdis von Magnus, José Madalengoitia, Jeremy Morris, and Gertrude Van Wagenen. Some of Horstmann's correspondence with Albert Sabin is filed in this series but their exchanges that concern the sharing results and specimens are filed in Series IV. There are almost no surviving personal family letters.

Yale University files document women's issues at Yale, particularly in the 1970s. Files for the Yale University Committee on the Status of Women (also known as the Greene Committee), the Advisory Committee on the Education of Women, and the Yale Academic and Professional Women's forum contain discussions of contemporary concerns over women in research, the promotional ladder for women, maternity leave, child care, and discrimination.

Horstmann's large number of John Rodman Paul files attests to the special working relationship between the two. The files detail their collaboration in research and publication. The Paul materials also include correspondence concerning publication of a festschrift in his honor and letters of sympathy at his death.

Horstmann expressed some of her political convictions in letters to congressmen. These letters are filed in the section for United States Congress. Prominent among these are letters concerning the political situation in southern Africa.

Series II: Writings, 1946 -1994, n.d.

Arranged chronologically, the series includes Horstmann's unpublished lectures and correspondence concerning publications. Though Horstmann contributed well over 150 professional papers, these, being published, are not in the files.

The lecture files rarely contain word for word typescripts of her talks. Rather, one finds in them hand written outlines on paper or index cards in Horstmann's large round penmanship. Some lecture notes served for more than one appearance, as can occasionally be noticed from the numbering of the pages. Because Horstmann gave so many talks on rubella and poliomyelitis, those topics appear often.

A comprehensive bibliography of Horstmann's published work is in Series VI.

b. 15, f. 1	"Epidemiology of Poliomyelitis" [Monmouth County Medical Society] English	1946
b. 15, f. 2	"Some Clinical Problems in Acute Poliomyelitis" [Rocky Mountain Conference on Poliomyelitis, includes discussions] English	1946
b. 15, f. 3	"The Incubation Period in Human Poliomyelitis" with J. R. Paul, [Interurban Clinical Club] English	1947
b. 15, f. 4	"The Incubation Period in Human Poliomyelitis" [Conference on the Epidemiology of Poliomyelitis, New Haven] English	1947
b. 15, f. 5	Epidemiology of Poliomyelitis [Polio League]	1952
b. 15, f. 6	"Poliomyelitis- Modern Views" [Symposium on Acute Infectious Diseases] English	1952
b. 15, f. 7	"Poliomyelitis Virus in the Blood of Orally Infected Monkeys and Chimpanzees" [Federation] English	1952

Series III: Teaching, 1947-1983

The series consists of a small number of teaching files from courses Horstmann taught at Yale in the Department of Epidemiology and Public Health, the School of Medicine, and other university venues, as well as courses taught outside of Yale. The files are arranged by course title under a heading for each department or school in which she taught and include notes made in preparing for the course, outlines, course descriptions, instructors guides, charts, and bibliographies. In no case are all the lectures for an individual course available.

Epidemiology and Public Health		
b. 22, f. 1	Principles of Epidemiology	1947-1951, undated
b. 22, f. 2	Enterovirus infections	1958
b. 22, f. 3	External [Environmental] Medicine	1958-1961, undated
b. 22, f. 4	"Rubella and the Rubella Syndrome" [Special lectures in medical microbiology] English	1962-1966
b. 22, f. 5	International Epidemiology	1969, undated
b. 22, f. 6	Epidemiology of Viral Infections	1972, 1979

--------------	--	------

Series IV: Research and Consultations, 1940-1990

The series contains extensive notes, data, and reports generated by Horstmann's work in the laboratory at Yale and during field studies around the world. The series contains notebooks, data sheets, and reports of projects. The materials are organized in three sections: Research notes on viruses, Field studies, and Administrative files.

The files in the section Research notes on viruses reflect Horstmann's major research interests in poliomyelitis and rubella. These files are arranged in chronological order within three headings: Poliomyelitis studies, Rubella studies, and Other.

The Field studies files also document her research interests in polio and rubella and show the range of her travels to assure the safety and effectiveness of vaccination programs. The section is arranged alphabetically by geographical locality. Many of the field studies resulted from an invitation to Horstmann to investigate problems or to improve the health situation in a given area. Because the field studies include analyses done on site as well as the research done on collected samples shipped to the Yale laboratories, the results cover a longer period of time than the actual visit. File names are those given by Horstmann.

There are numerous files for field studies conducted at the Southbury Training School in Connecticut. Residents were used for epidemiological research on poliomyelitis and rubella vaccines and antibodies. Since the school provided a stable, isolated population of retarded children, researchers could follow results over an extended period of time.

Similarly, there are extensive files from studies done in Cairo, Egypt. This research built on studies and relationships begun by John Rodman Paul in the 1940s when he was Director of the Virus Commission of the United States Army Epidemiological Board. Horstmann continued the work in 1955 under the auspices of Navy Medical Research (NAMRU #3), where she also assisted in the development of their tissue culture laboratory. She studied types and distribution of poliomyelitis viruses collected from non-paralytic cases as well as orphan viruses (those not associated with a specific disease).

The field studies also include a few surveys conducted by epidemiology and public health students taking the core course EPH 510, for example, a study of Hamden High School first year students' immunity to rubella and a survey of the immune status of adolescents in Danbury.

The small amount of Administrative files include miscellaneous reports, research grant material, and a folder regarding animal care.

Research notes on infectious diseases

Poliomyelitis studies

b. 23, f. 1	Vaccination experiments	1946-1948, undated
b. 23, f. 2	Biphasic clinical symptoms	1948-1951, undated
b. 23, f. 3	Immunization and skin test experiments	1949-1952, undated
b. 23, f. 4	Age trends study	1948-1955, undated
b. 23, f. 5	Post-inoculation poliomyelitis	1950, undated
b. 23, f. 6	Physical activity and paralysis	1950-1951, undated

Research notes on infectious diseases > Poliomyelitis studies (continued)

b. 23, f. 7	Cynomolgus monkey tests of virus in blood	1951
b. 23, f. 8	Samples tested for T, d, and MS characters	1951-1959, undated
b. 23, f. 9	Chimpanzees tested for virus and antibodies in blood after virus ingestion	1951-1952
b. 23, f. 10	Viruses, Types I, II, III, from various locations tested	1951-1959, undated
b. 23, f. 11	Tonsillectomy	1951-1960, undated
b. 23, f. 12	Skin taking experiments on cynomolgus monkeys	1952
b. 23, f. 13	Cynomolgus monkeys in Manuelidis experiments	1952-1954
b. 23, f. 14	Response of cynomolgus monkeys to intracerebral inoculation	1952-1953
b. 24, f. 15	Cynomolgus experiments with Egypt virus	1952-1953
b. 24, f. 16	Letters of inquiry	1952-1983
b. 24, f. 17	Chimpanzee vaccination experiments	1953
b. 24, f. 18	Chimpanzees fed Leon virus	1953
b. 24, f. 19	Cynomolgus monkeys kidney tissue tests	1953
b. 24, f. 20	Vaccine as provoking factor	1953
b. 24, f. 21	Cynomolgus monkeys tested for immunity after receiving various vaccines	1953-1963, undated
b. 24, f. 22	Cynomolgus viremia experiments	1954
b. 25, f. 23	Metabolic inhibition test of Edward Opton	1955
b. 25, f. 24	Vaccine embargo	1955, undated
b. 25, f. 25	Chimpanzee vaccine experiments	1955
b. 25, f. 26	Tests for virulence of attenuated virus after human passage	1956, undated
b. 25, f. 27	Thorotrast experiments	1956
b. 25, f. 28	Cynomolgus feeding experiments testing viremia	[1956?]
b. 25, f. 29	Testing for poliomyelitis antibodies	1956
b. 25, f. 30	Localization in the gut of cynomolgus monkeys	1956-1967, undated
b. 25, f. 31	Type IV mouse tests	1956-1957, undated
b. 25, f. 32	Chimpanzee vaccine experiments [Gunther Masse]	1956-1957, undated

Research notes on infectious diseases > Poliomyelitis studies (continued)

b. 25, f. 33	Test of Sabin LSC Type I virus	1957
b. 25, f. 34	Pathogenesis	1957, 1978, undated
b. 25, f. 35	Tests to screen freshly isolated strains for "thermal markers"	1958, undated
b. 25, f. 36	Cynomolgus monkeys tested for immunity after receiving Salk and Sabin vaccines	1958-1963, undated
b. 25, f. 37	Growth curves at various temperatures	1959, undated
b. 25, f. 38	Proposed study for testing stability of Sabin Types I and II attenuated viruses on sequential human passages	1959
b. 25, f. 39	Thermal markers	1959
b. 25, f. 40	Salk vaccine and shoulder girdle neuritis	1959
b. 25, f. 41	Sabin vaccine trial in New Haven	1959-1960
b. 25, f. 42	Wecker, MacBride, Plotkin, and Melnick tests	1960-1961
b. 25, f. 43	Viremia studies	1960-1963
b. 25, f. 44	Filter paper technique for analysis [Edward Opton]	1960-1967, undated
b. 25, f. 45	Parnel test -cynomolgus monkeys	1961
b. 25, f. 46	Oral vaccine to newborn infants	[1961-1962?] undated
b. 25, f. 47	Letters of inquiry	1962-1977
b. 25, f. 48	Antibody survey in Army recruits	1962-1963, undated
b. 25, f. 49	Fly experiment	1962
b. 25, f. 50	Surveillance reports data	1962
b. 26, f. 51	Vaccines, New Haven meeting	1962
b. 26, f. 52	Marker tests for poliomyelitis vaccine	1964
b. 26, f. 53	Effects of age on antibody response	1964, undated
b. 26, f. 54	Further tests with attenuated Type III vaccine	1964-1965, undated
b. 26, f. 55	Law cases	1964-1988
b. 26, f. 56	Neutralizing antibody assays	1966-1967
b. 26, f. 57	Seroimmunity	[1971?]

Rubella studies

Research notes on infectious diseases > Rubella studies (continued)

b. 26, f. 58 - 61	General	1962-1965, 1969-1975, undated
b. 26, f. 62	Chimpanzees	1953-1956, 1969, undated
b. 26, f. 63	Misao Ohtawara's studies	[1961]- 1962, undated
b. 26, f. 64	Monkeys	1962-1963, undated
b. 26, f. 65	Viral studies of fetal tissues where mother had rubella during pregnancy	1963-1965, undated
b. 26, f. 66	Baboons	1964-1966, undated
b. 26, f. 67	National Institutes of Health committees	1964-1966, undated
b. 26, f. 68	Letters of inquiry	1964-1974
b. 26, f. 69	Syndrome case history	1965-1967, undated
b. 27, f. 70	Studies with chimpanzees and baboons	1966-1967, undated
b. 27, f. 71	Immunity study	1966-1968, undated
b. 27, f. 72	Congenital patients	1966-1977, undated
b. 27, f. 73	Cases in Connecticut	1968-1976
b. 27, f. 74 - 75	Vaccine post-partum studies	1969-1970, undated
b. 27, f. 76 - 78	Study: Books I, II, and III	1969-1978
b. 28, f. 79	Precipitations of RA 27/3 vaccines	1970
b. 28, f. 80	Vaccine testing	1970-1981
b. 28, f. 81	Rho antigens and antibodies	1973-1974, undated
b. 28, f. 82	Hemoagglutination inhibition tests	1973-1974, undated
b. 28, f. 83	Vaccine trial descriptions for National Institutes of Health	1976
b. 28, f. 84	Proficiency Program	1976, 1982
b. 28, f. 85	Evaluation and comparison of two virus vaccines	1979

Research notes on infectious diseases > Rubella studies (continued)

Series V: Professional Meetings, 1951-1994

Arranged chronologically, the series documents Horstmann's interest and involvement in relevant professional meetings both in the United States and abroad. The files include programs, correspondence, agendas and handouts. If the papers contain the text of lecture Horstmann gave at a meeting, that text is included in the Series II, Writings.

b. 38, f. 1 - 3	General	1951-1994
b. 38, f. 4 - 5	World Health Organization	1958-1959, undated
b. 38, f. 6	International Conference on Vaccines against Viral and Rickettsial Diseases of Man	1966
b. 38, f. 7	Nobel Prize	1967
b. 38, f. 8	First International Congress for Virology	1968
b. 38, f. 9	National Institutes of Health. International Conference on Rubella Immunization	1968-1969
b. 38, f. 10	American College of Pathologists. Standards for Methods in Microbiology	1969
b. 38, f. 11	Society for the Study of Infectious Disease. Joint United States and Scottish Conference	1970
b. 38, f. 12	Conference on Infectious Diseases, Gothenberg	1970
b. 39, f. 13	Human Diseases Caused by Viruses. Recent Developments	1976
b. 39, f. 14	British Society for the Study of Infectious Disease. Scottish Branch and Infectious Diseases Society of America. Joint Conference	1976
b. 39, f. 15	United States Department of Health, Education and Welfare. National Immunization Conference	1976
b. 39, f. 16	Scottish-Scandinavian Conference on Infectious Diseases	1977
b. 39, f. 17	Viral and Bacterial Vaccines. International Symposium	1977
b. 39, f. 18	National Academy of Sciences	1977
b. 39, f. 19	Center for Disease Control. Influenza Vaccine Use	1977
b. 39, f. 20	Connaught Scientific Seminar	1979
b. 39, f. 21 - 22	National Institutes of Health. Conference on the Eradication of Infectious Diseases	1980
b. 39, f. 23	European Association Against Virus Diseases	1982
b. 39, f. 24 - 25	American Society for Virology. Annual Meeting	1983, 1984
b. 39, f. 26	International Rubella Symposium	1984
b. 39, f. 27	Poliomyelitis Symposium	1984
b. 39, f. 28	Czechoslovak Society for Microbiology. Symposium on the Prevention and Treatment of Viral Infections	1985

b. 39, f. 29	Association of American Physicians. Centennial Clinical Science from the Past to the Future	1985-1987
b. 39, f. 30	Poliomyelitis Vaccines: Re-evaluating Policy Options	1988
b. 39, f. 31	European Society against Virus Diseases and European Group for Rapid Viral Diagnosis. Virus Research and Diagnosis in Health and Disease	1989

Series VI: Personal Papers, 1941-2001

The series contains a small quantity of Dorothy Horstmann's personal materials. These include tributes and honors, memorabilia, and a smattering of travel notes from her extensive world travels. Materials in the series are arranged in alphabetical order by record type.

b. 40, f. 1	General	1985-1994
b. 40, f. 2	Bibliographies	[1994?], undated
b. 40, f. 3	Biographical directory listings	1969-1996
b. 40, f. 4	Biographical information	1941-1994, undated
b. 40, f. 5	Clippings	1952-1970, 2001, undated
Congratulatory		
b. 40, f. 6	Appointment to full professor	1961, undated
b. 40, f. 7	John Rodman Paul Professorship	1969, undated
b. 40, f. 8	Election to the National Academy of Sciences	1975, undated
b. 40, f. 9	<i>Festschrift: Yale Journal of Biology and Medicine</i> English	1982
b. 40, f. 10	Memberships	1976-1990
b. 40, f. 11	Memorabilia	1961-1981, undated
b. 40, f. 12	Memorial service for Dorothy Horstmann	2001
Notebooks		
b. 41, f. 13	Payments received	1977-1993
b. 41, f. 14	Professional notes	1959, 1961, undated
b. 41, f. 15	Reception for <i>Yale Journal of Biology and Medicine</i> hosted by Dorothy Horstmann	1982
Tributes and honors		
b. 41, f. 16	General	1953-1993, undated
b. 41, f. 17	Smith College, honorary degree	1961
b. 41, f. 18	James Deacon Bruce Memorial Award	1975
b. 41, f. 19	Thorvald Madsen Award	1977
b. 41, f. 20	Alpha Omega Alpha, Honor Medical Society	1977-1978
b. 41, f. 21	Dorothy M. Horstmann Lectureship	1991-1993

Tributes and honors (continued)

b. 41, f. 22	Dorothy M. Horstmann Award, Infectious Diseases Society	1993
Trips		
b. 41, f. 23	Tahiti diary	1951
b. 41, f. 24	South Africa	1979
b. 41, f. 25	Travel itineraries	1974-1992, undated

Series VII: Photographs, 1940-1994

The series includes portraits of Horstmann, as well as photographs of her colleagues. Those of colleagues include pictures at professional meetings, as well as the annual Yale School of Medicine faculty photographs. The series also includes photographs from Horstmann's travels. These are arranged by place, under the heading Trips.

b. 42, f. 1 - 4	Portraits [include proofs and negatives] A copy of this material is available in digital form from Manuscripts and Archives. Contact Manuscripts and Archives at beinecke.library@yale.edu to request access to the digital copy.	1940, 1946, 1960-1985, undated
b. 42, f. 5	Colleagues A copy of this material is available in digital form from Manuscripts and Archives. Contact Manuscripts and Archives at beinecke.library@yale.edu to request access to the digital copy.	1958-1994, undated
b. 42, f. 6	Colleagues and D. M. Horstmann A copy of this material is available in digital form from Manuscripts and Archives. Contact Manuscripts and Archives at beinecke.library@yale.edu to request access to the digital copy.	1944-1988, undated
b. 42, f. 7	Faculty A copy of this material is available in digital form from Manuscripts and Archives. Contact Manuscripts and Archives at beinecke.library@yale.edu to request access to the digital copy.	1945-1961, undated
b. 43, f. 8 - 9	Faculty A copy of this material is available in digital form from Manuscripts and Archives. Contact Manuscripts and Archives at beinecke.library@yale.edu to request access to the digital copy.	1962-1991, undated
	Meetings	
b. 43, f. 10	General	1948-1989
b. 43, f. 11	Infectious Diseases Society of America	1970-1988

Selected Search Terms

The following terms have been used to index the description of this collection in the Library's online catalog. They are grouped by name of person or organization, by subject or location, and by occupation and listed alphabetically therein.

Subjects

Poliomyelitis
Rubella
Virology
Women in medicine

Geographic Names

Europe, Eastern -- Description and travel

Names

Gear, James H. S. (James Henderson
Sutherland), 1905-1994
Horstmann, Dorothy M. (Dorothy Millicent),
1911-
Madalengoitia, José
Miller, I. George
Morris, J. N. (Jeremy Noah)
Paul, John R. (John Rodman), 1893-1971
Sabin, Albert B. (Albert Bruce), 1906-1993
Van Wagenen, Gertrude, 1893-
Von Magnus, Herdis

Corporate Bodies

Yale University. Department of Epidemiology
and Public Health
Yale University. School of Medicine
