---

### Preferred Citation

War Poster Collection (MS 671). Manuscripts and Archives, Yale University Library.

---

### Processing Information

The original item-level index to series I was produced using the FAMULUS word processing program and later converted to an Excel spreadsheet and encoded in EAD. A small quantity of World War I posters from the collections of Simon Brett, Paul Jean Gaston Darrott, and William Mullally were not originally itemized or indexed. In May 2014 these items were indexed while encoding the finding aid. However, they were not assigned item numbers. Thirty posters from the Allen Collection had also not previously been described at the item level. During the creation of the encoded finding aid, these posters were described at the item level and the original codes and numerical identifiers were retained.

---

### Existence and Location of Copies

Approximately 200 posters from series I and II are available in digital form through Manuscripts and Archives Digital Image Database (MADID).

William Mullally Collection available on microfilm (2 reels, 35mm.) from Manuscripts and Archives, Yale University, at cost. Order no. HM157.
