CALL NUMBER: MS 2012

CREATOR: Bormann, F. Herbert, 1922-2012

TITLE: F. Herbert Bormann papers

DATES: 1950–2009

PHYSICAL DESCRIPTION: 26.7 linear feet (72 boxes)

PHYSICAL DESCRIPTION: 130.551 Megabytes

LANGUAGE: The material is in English.

SUMMARY: The papers document the professional work of ecologist F. Herbert Bormann. The bulk of the papers comprise research materials, speeches, and writings. Research materials include notes, photographs, and grant reports and proposals. Projects that are the most represented include smaller studies at Hubbard Brook Experimental Forest and the Sandbox project. Speeches and writings include articles for popular magazines and newspapers, book drafts, testimony for legislative bodies, and award acceptance speeches. There are also some non-academic writings. Correspondence included in the collection is mainly with colleagues, including some on specific topics such as tropical forestry and the Hubbard Brook Foundation. There is a small amount of personal correspondence as well. Teaching materials are limited and include some syllabi, course notes and materials for specific courses, and lectures on various topics. The papers cover his work from 1950 to 2009, with much of the collection dating from the mid 1980s to the mid 2000s.

ONLINE FINDING AID: To cite or bookmark this finding aid, please use the following link: <https://hdl.handle.net/10079/fa/>

Requesting Instructions

To request items from this collection for use in the Manuscripts and Archives reading room, please use the request links in the HTML version of this finding aid, available at <https://hdl.handle.net/10079/fa/>.

To order reproductions from this collection, please go to http://www.library.yale.edu/mssa/ifr_copy_order.html. The information you will need to submit an order includes: the collection call number, collection title, series or accession number, box number, and folder number or name.

Administrative Information

Immediate Source of Acquisition

Gift of M. Christine Bormann, 2015. Accession 2020-M-0024 gift of Gene Likens, 2019.

Conditions Governing Access

The bulk of the collection is open for research.

Yale University related files are restricted until 2055 as established by Yale Corporation regulations. Student records are restricted until 2095 as established by Yale Corporation regulations. <http://web.library.yale.edu/mssa/collections/research-use-of-yale-university-archives>.

Original computer files may not be accessed due to their fragility. Researchers must consult access copies.

Conditions Governing Use

Copyright for unpublished materials authored or otherwise produced by F. Herbert Bormann was transferred to Yale University in 2015. These materials may be used for non-commercial purposes without seeking permission from Yale University as the copyright holder. For other uses of these materials, please contact beinecke.library@yale.edu. Copyright status for other collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

F. Herbert Bormann Papers (MS 2012). Manuscripts and Archives, Yale University Library.

Separated Materials

Computer systems disks and disks consistinsisting of duplicates were discarded.

Biographical / Historical

Frederick Herbert Bormann (who used the name Herb) was born on March 24, 1922, in New York, New York. He initially enrolled at the University of Idaho but left after one semester in order to enlist in the United States Navy when the United States entered World War II. After working as a ship fitter and welder, he was selected for officer candidate school at Princeton University. After World War II, he earned his bachelor's degree in agricultural science from Rutgers University in 1948 and his doctorate in plant ecology from Duke University in 1952. He then worked at Emory University, where he taught botany from 1952 to 1956. He moved on to Dartmouth College in 1956 and assumed the position of Oastler Professor of Forest Ecology at Yale University's School of Forestry and Environmental Studies in 1966, where he remained for the rest of his career.

While at Dartmouth, he would take his classes on field trips to study plant life in White Mountain National Forest. He also conducted research at a hydrologic research site at Hubbard Brook Experimental Forest,

opened in 1955. Bormann formed a partnership with Gene E. Likens and Noye Johnson from Dartmouth and Robert Pierce of the United States Forest Service to study a watershed within Hubbard Brook. He continued to travel to Hubbard Brook after he started teaching at Yale. His work on the Hubbard Brook Ecosystem Study and others, as well as research performed by other scientists who came to Hubbard Brook yielded a vast body of knowledge of the functions of ecosystems.

His work with Likens, Johnson, Pierce, and others also brought attention to the damage done by humans on these ecosystems. They studied the effects of clear-cutting, when lumber companies cut down every tree in a set area, on soil and water. This research showed that soil lacked important nutrients, and water levels and water quality decreased in these areas as well. They also studied chemical interactions in the ecosystem. Through this work, they discovered that the precipitation in the area was far more acidic than expected. Bormann and Likens also documented the effects of acidic precipitation on the ecosystem in Hubbard Brook, such as plant damage and fish kills. This work was used in the preparation of the Clean Air Act in 1990, which worked to reduce acid rain. Bormann retired from teaching in 1992, although he did continue to work on research as well as offer seminars and lectures on occasion. One of his later projects was studying traditional methods of caring for lawns and the problems fertilizers posed for the environment. He also was interested in suburbanization's effects on the ecology of an area and bridging public policy and environmental research.

Bormann won many prizes for his work over the years, including the Tyler Prize for Environmental Achievement (which he shared with Likens), the National Wildlife Foundation's National Conservation Achievement Award in Science, and Yale's Aldo Leopold Award, which has only been given to one previous academic. He also was elected to the National Academy of Sciences at age 49, one of the youngest scientists to receive that honor. Bormann died on June 7, 2012. He was survived by his wife, M. Christine Williamson Bormann, four children, and six grandchildren.

Scope and Contents

The papers document the professional work of ecologist F. Herbert Bormann. The bulk of the papers comprise research materials, speeches, and writings. Research materials include notes, photographs, and grant reports and proposals. Projects that are the most represented include smaller studies at Hubbard Brook Experimental Forest and the Sandbox project. Speeches and writings include articles for popular magazines and newspapers, book drafts, testimony for legislative bodies, and award acceptance speeches. There are also some non-academic writings. Correspondence included in the collection is mainly with colleagues, including some on specific topics such as tropical forestry and the Hubbard Brook Foundation. There is a small amount of personal correspondence as well. Teaching materials are limited and include some syllabi, course notes and materials for specific courses, and lectures on various topics. The papers cover his work from 1950 to 2009, with much of the collection dating from the mid 1980s to the mid 2000s.

Arrangement

The papers are arranged in four series and one accession: I. Correspondence, 1957-2009. II. Research materials, 1950-2006. III. Teaching materials, 1967-2006. IV. Speeches and writings, 1950-2009.

Collection Contents

Series I: Correspondence, 1957–2009

This series comprises professional and correspondence sent to and from Bormann. The series has been subdivided into three sections: general, individuals and organizations, and topical. General correspondence is made up of individuals that Bormann did not correspond with a significant amount and is mostly personal in nature. Individuals and organizations contains information about research in progress, travel arrangements for events, and writing projects. Topical contains correspondence related to specific projects and publications, advocacy Bormann participated in, letters to the editor, and academic recommendations. General correspondence is arranged chronologically while correspondence related to specific individuals and organizations and topics are arranged alphabetically.

b. 2, f. 15	Tropical forestry	1978

Series II: Research materials, 1950–2006

This series comprises notes and photographs related to field research. Grant proposals and reports are also included in this series as it outlines goals of research and some findings. While there are notes clearly pertaining to specific topics such as the Sandbox projects and Hubbard Brook, the majority of the notes are located in small notebooks and small notepads that are labeled chronologically. Photographs document different research sites, the landscape, plants, and animals of different biomes, and rocks and minerals. A significant number of these photographs are 35 millimeter slides. Folders of these slides are labeled with the name listed on the original slide box; the sleeves housing the slides have further labeling of the photographs' subjects. Grant proposals and reports are mainly for the Andrew W. Mellon Foundation. There are also a few for Yale University and the University of Vermont. Materials are arranged alphabetically.

Series IV: Speeches and writings, 1950–2009

This series comprises various speeches and writings composed by Bormann. The majority of the speeches were given to scientific and professional organizations and are related to his research at Hubbard Brook or environmentalism and ecology in general. Other speeches include award acceptance speeches, commencement speeches, and special/keynote speeches given at lectures, seminars, and symposiums. Much of the writings in this series are on general ecology topics for popular magazines and newspapers. Other works include drafts and edits of his book *Redesigning the American Lawn* and other writings on freedom lawns, testimony before legislative bodies on different environmental concerns, and a small amount of academic papers, including those that had collaborating parties. Materials are arranged alphabetically.

General

This section contains both speeches and writings that Bormann prepared on the same topics for different venues and media outlets.

Global environmental debt

b. 13, f. 1	Ecomythology See also Global environmental debt and ecomythology.	Circa 1993-circa 1994
b. 13, f. 2	References	Circa 1998-2002

Series V: Born digital files, 1984–2006

This series consists of seventeen 5.25 inch floppy disks, nine 3.5 inch floppy disks, one CD-R, and one CD-RW. Labels on the disks suggest that the contents include text of speeches and writings, correspondence such as student recommendations, teaching materials, Bormann's curriculum vitae and other professional biographical materials, and backup/boot files for different software and operating systems.

Closed until processed.

Accession 2020-M-0024: Additional Material, 1953–1990

The accession contains F. Herbert Bormann's research files on a variety of forestry topics, research data, professional correspondence with colleagues, writings (including unpublished articles), and grant proposals and reports mostly relating to the Hubbard Brook Ecosystem Study. Also included are files relating to Bormann's teaching career at Yale University.

Yale University related files are restricted until 2055 as established by Yale Corporation regulations. Student records are restricted until 2095 as established by Yale Corporation regulations. <http://web.library.yale.edu/mssa/collections/research-use-of-yale-university-archives>.

The accession is arranged in seven groupings: Research files; Correspondence: Yale and teaching files; Grant proposals and reports: Writings: Hubbard Brook Ecosystem Study: and Restricted files.

Research files		
b. 1, f. 1-4	General	Circa 1960s–1980s
b. 1, f. 5	Aber, life history	Circa 1970s
b. 1, f. 6	Acid rain publications	Circa 1970s
b. 1, f. 7	Alaska chromosome data	1953–1954
b. 1, f. 8	Bibliography of recent Russian literature on the ecology of the Soviet Union	1964
b. 1, f. 9	Bibliography of the development of plant sociology	Circa 1950s
b. 1, f. 10	Biomass of old age stands for Robert Whittaker paper	1973
b. 1, f. 10-11	Bormann, Herbert, raw research data	Circa 1960s–1970s
b. 2, f. 1-4	Bormann, Herbert, raw research data	Circa 1960s–1970s
b. 2, f. 5	Brookhaven outline and notes	1963
b. 2, f. 6	Brosimum research proposals	1979–1980
b. 2, f. 7	Calculation of increase in soil moisture	Circa 1970s
b. 2, f. 8	Calculation on organic matter and nitrogen values	1976
b. 2, f. 9-10	Cloud moisture project	1984
b. 3, f. 1	Connecticut Citizen Research Group	1974–1975
b. 3, f. 2	Connecticut organizations	1960–1989
b. 3, f. 3-4	Dead wood data	1976
b. 3, f. 5	Effect of drying on germination, summary of data	1953
b. 3, f. 6	Field notes	1957–1958
b. 3, f. 7	Frequency plots	1976

Research files (continued)

Fuelwood

b. 3, f. 8	Earth to hearth main copy	1987
b. 3, f. 9-10	References for charcoal wood model	1987
b. 4, f. 1	References for charcoal wood model	1987
b. 4, f. 2	Wood and charcoal model versions	1987
b. 4, f. 3	Geologic weathering	1976
b. 4, f. 4	Grassland range and forest influence	1963
b. 4, f. 5	Greenhouse data	1954–1955
b. 4, f. 6	Holes in for indeterminate growth, even-aged stand	1974
b. 4, f. 7	International Environmental Programs Committee	1981
b. 4, f. 8-9	JABOWA, live and dead biomass, nutrient levels	1975
b. 4, f. 10	Juvenile data, inactive	Circa 1950s
b. 4, f. 11	Light data, active	Circa 1950s
b. 4, f. 12	Light-photosynthesis interaction	Circa 1960s
b. 4, f. 13	Living biomass and forest floor accumulation	1974
b. 4, f. 14	Loblolly pine research and data	1960–1969
b. 5, f. 1	Loblolly pine research and data	1960–1969
b. 5, f. 2	Loblolly pine reversions in growth experiments	Circa 1960s
b. 5, f. 3	Long Island Sound	1971
b. 5, f. 4	Lycopodium rings	Circa 1960s
b. 5, f. 5	Marine Biology Laboratory	1972
b. 5, f. 6	Mineral soil behavior	Undated
b. 5, f. 7	Murphy study	1976
b. 5, f. 8	Notebooks	1955–1958
b. 5, f. 9	Oak Ridge course, notebooks, and data	Circa 1960s
b. 5, f. 10	Observations on patches and seedling tolerance	1975
b. 5, f. 11	Particulate matter data	1974
b. 5, f. 12	Phenotypic adaptability	Circa 1960s
b. 6, f. 1	Phloem differentiation in <i>Pinus strobus</i>	1967
b. 6, f. 2	Pierce-Bormann removal of timber	Undated

Research files (continued)

b. 6, f. 3	Pierce-Martin forest floor losses	Undated
b. 6, f. 4	Plant-soil relations	Circa 1950s
b. 6, f. 5	Precipitation and runoff data	1965
b. 6, f. 6	Preliminary results on study of the effects of acid rain on Hubbard Brook soils	1972
b. 6, f. 7	Proleptic shoot study	1966
b. 6, f. 8	Research references	Circa 1970s
b. 6, f. 9	Root graft bibliography	1962
b. 6, f. 10	Roots of forest trees	1949
b. 6, f. 11	Sand hills data	Circa 1950s
b. 6, f. 12	Scientific Committee on Problems of the Environment (SCOPE)	1977
b. 6, f. 13-14	Sleepers River Project	1978–1980
b. 6, f. 15	Soil data	Circa 1970s
b. 6, f. 16	Steady state research and clippings	1970
b. 6, f. 17	Summary of particulate matter in ponding basin	Undated
b. 6, f. 18	Summary of phosphorus cycle	1974
b. 6, f. 19	Summer projects	1975
b. 7, f. 1	Sweetgum data, photosynthesis	1958
b. 7, f. 2	Sweetgum greenhouse experiments	1958
b. 7, f. 3	Thoughts on forest utilization, steady state	Undated
b. 7, f. 4	Thoughts on stability	1976
b. 7, f. 5	Transpiration	1974
b. 7, f. 6	Tree physiology	1956
b. 7, f. 7	United States National Man and the Biosphere Committee research projects	1980–1981
b. 7, f. 8	W-2 input-output, recovery as of June 1975	1975
b. 7, f. 9	W-4 growth before and after cutting	Circa 1970s
b. 7, f. 10-11	W-4 phytosociology	1971–1972
b. 7, f. 12	W-4 species data	Undated
b. 7, f. 13	W-4, Tim Wood data	1976
b. 7, f. 14	Woodwell, George M., ecosystems center	1981

b. 23, f. 7	Wargo, John	1986
b. 23, f. 8	Weathers, Kathy	1988
b. 24, f. 1-2	Connecticut Research Commission	1968–1974
b. 24, f. 3	Cornell University	1971–1972

Grant proposals and reports (continued)

b. 24, f. 4	Forest Service cooperative agreement	1963–1968
b. 24, f. 5	Hubbard Brook funds and budget	1969–1972
b. 24, f. 6-7	Mary Flagler Cary Charitable Trust	1982–1986
b. 24, f. 8	Merck Foundation	1986–1988
	National Science Foundation	
b. 24, f. 9	Award of contract	1985
b. 24, f. 10	Bowden, W. B., subcontract	1987
b. 24, f. 11-16	Correspondence	1968–1986
b. 25, f. 1	Hubbard Brook grant, budget, correspondence, and reports	1986
b. 25, f. 2	Hubbard Brook site visit and review	1973
	Proposals and reports	
b. 25, f. 3-8	1963–1971	1963–1971
b. 26, f. 1-6	1971–1974	1971–1974
b. 27, f. 1-4	1974–1978	1974–1978
b. 28, f. 1-6	1980–1982	1980–1982
b. 29, f. 1-7	1983–1984	1983–1984
b. 30, f. 1-7	1984–1986	1984–1986
b. 31, f. 1-5	1986–1989	1986–1989
b. 31, f. 6	Uhl-Nepstad grant	1986
b. 31, f. 7	Public Health Service	1962
b. 31, f. 8	United States Department of the Interior, National Park Service, Fire Island grant	1968–1970
	Writings	
b. 32, f. 1	General	Circa 1950s–1960s
b. 32, f. 2	Acid rain and ecosystem nutrient cycles	Circa 1970s
b. 32, f. 3	Biological and chemical control of phosphorus cycling in a northern hardwood forest	1983
b. 32, f. 4	Changes in the growth pattern of white pine trees undergoing suppression	1965
b. 32, f. 5	Chromosome studies of plants from the arctic slope of Alaska	1955
b. 32, f. 6	A disjunct stand of hemlock in the Georgia Piedmont	1958

Writings (continued)

b. 32, f. 7	Ecological implications of changes in the photosynthetic response of <i>Pinus Taeda</i> seedlings during ontogeny	1956
b. 32, f. 8	The ecosystem concept, the necessary basis for land use	Circa 1970s
b. 32, f. 9	Ecosystem talk notes	Circa 1970s
b. 32, f. 10	The forest ecosystem: perturbation and recovery Includes draft with comments by E.L. Stone	1972
b. 32, f. 11	Growth strategy in tulip poplar	1980
b. 32, f. 12	A hypothesis concerning radiosensitivity	1964
b. 32, f. 13	Individuality in forest trees	1960
b. 32, f. 14	Intraspecific root grafting and the survival of eastern white pine stumps	1961
b. 32, f. 15	Landscape ecology and air pollution	1986
b. 32, f. 16	Landscape ecology symposium, University of Georgia	1985
b. 32, f. 17	Mathematical analysis of decision problems in ecology	1973
b. 32, f. 18	Measurements of tree ring growth with dial-gage dendrometers and vernier tree ring bands	1962
b. 32, f. 19	Moisture transfer between plants through intertwined root systems	1957
b. 32, f. 20	Natural root grafts	1966
b. 32, f. 21	Nutrient regulation in a headwater stream: sediments as a sink	Circa 1970s
b. 32, f. 22	The occurrence of natural root grafting in eastern white pine and its ecological implications	1959
b. 32, f. 23	Old-age stand of hemlock-northern hardwood forest in central Vermont	1964
b. 32, f. 24	Ontogenetic relationships of the primary leaf of <i>Pinus taeda</i> L. and <i>P. echinata</i> mill	1963
b. 32, f. 25	Percentage light readings, their intensity-duration aspects, and ecology	1956
b. 32, f. 26	Phenotypic variation in <i>abies balsamea</i> in response to altitudinal and geographic gradients	1963
b. 32, f. 27	The primary leaf as an indicator of physiologic condition in short leaf pine	1955
b. 32, f. 28	The relationships of ontogenetic development	1958
b. 32, f. 29	The role of nature in the urbanized landscape	1973
b. 32, f. 30	The structure, function, and ecological significance of root grafts in <i>Pinus strobus</i> L.	1966
b. 32, f. 31	A study of intra-specific root grafts in white pine	1961
b. 33, f. 1	Testimony on H.R. 6750, United States Senate	1969

Writings (continued)

b. 33, f. 2	Translocation of silvieides through root grafts	1960
b. 33, f. 3	Unlimited growth: growing, growing, gone	1972–1973
b. 33, f. 4	The vegetable-irrigator	1986
b. 33, f. 5	A watershed approach to problems of nutrient cycling in forest ecosystems	1966
b. 33, f. 6	Wilderness society seminar	1985
Hubbard Brook Ecosystem Study		
b. 33, f. 7	Administration	1985–1986
b. 33, f. 8	Air pollution, acid rain distribution	1982
b. 33, f. 9	Aluminum conference	1983
b. 33, f. 10-11	Annual meeting	1971–1989
b. 33, f. 12	Articles	Circa 1970s
b. 33, f. 13	Associate project coordinator job description	Undated
b. 33, f. 14	Budgets	1982–1983
b. 33, f. 15	A checklist of organisms for the Hubbard Brook ecosystem	1971
b. 33, f. 16	FORAST project	1982
b. 34, f. 1	Forest floor and soil trench	1977–1978
b. 34, f. 2	Hedin, Lars, response to article by Alan Katzenstein	1985
b. 34, f. 3	Hubbard Brook research foundation	1983
b. 34, f. 4	Meteorological station	1983
b. 34, f. 5-7	Mirror Lake book	1981
b. 34, b. 8	Mirror Lake property	1981–1982
b. 34, f. 9-10	Munn, Ted, chemical study	1982–1983
b. 35, f. 1	Orographic rain	1982
b. 35, f. 2	Past housing	1982–1988
b. 35, f. 3	Peer review of Hubbard Brook project	1975–1981
b. 35, f. 4	Plant defenses and resources availability	1986
b. 35, f. 5-8	Pleasant view farm administrative	1983
b. 35, f. 9	Prep for site visit by the National Science Foundation	1973
b. 35, f. 10	Progress report 1985	1984–1985
Publications		

Hubbard Brook Ecosystem Study > Publications (continued)

b. 36, f. 1	Abstracts	1966–1973

Selected Search Terms

The following terms have been used to index the description of this collection in the Library's online catalog. They are grouped by name of person or organization, by subject or location, and by occupation and listed alphabetically therein.

Subjects

Acid rain
Biotic communities
Clearcutting
Ecology
Ecology -- Study and teaching

Geographic Names

Hubbard Brook Experimental Forest (N.H.)

Names

Bormann, F. Herbert, 1922-2012
Likens, Gene E., 1935-

Corporate Body

Yale University. School of Forestry and
Environmental Studies
