

Appendix 4. Materials Not in Microfilm Edition

This list contains file-level descriptions excerpted from complete series listings, comprising all contents of the Ezra Stiles Papers not included in the 1978 microfilm edition. Contents include materials formerly classed as Ms Vault Stiles that were not microfilmed, and post-microfilm acquisitions. Unfilmed materials were identified by box and folder label annotations as found during processing in 2018; this information has not been verified against the microfilm.

This list is organized by series, and files are in order as found in each series.
